Education

2019/08 – 2022/09
Kampals, Udanda

Bachelor's Of Business Computing

Makerere University

During my studies, I acquired a strong foundation in business programming skills in relation with business environment, gaining a comprehensive understanding of programming languages, data structures, and software development principles. I completed coursework in database systems, network systems and web development. I also participated in several group projects, where I collaborated with teammates to develop innovative software solutions.

Courses

2023/03 – present
San Fransico, USA

Full stack deveLopment(Online)

Microverse

I undertook an intensive Full Stack Web Development course to enhance my skills and knowledge in building dynamic and interactive web applications. The course covers a wide range of topics, including front-end development, back-end development, and database management. Currently learning hands-on experience in HTML, CSS, and JavaScript for creating responsive and visually appealing user interfaces. Additionally learning frame works like react.js. Node.js and Ruby on Rails

2022/09 – 2022/09
Kampala, Uganda

Web Developement , Code Queen Bootcamp

Educating The Children

Proficient in designing and developing dynamic and responsive websites using modern web technologies. Skilled in front-end development, including HTML, CSS, JavaScript, and frameworks such as JQuery. Experienced in implementing user-friendly interfaces and ensuring cross-browser compatibility. Familiarity with version control systems like Git and collaborative development workflows. Proven ability to create efficient, scalable, and secure web applications. Strong problem-solving and debugging skills, with a focus on delivering high-quality code.

2022/11 – 2022/12

UI/UX designer

Great Lerner

Completed an intensive online course on UI/UX design, acquiring a comprehensive understanding of user-centered design principles and best practices. Developed proficiency in creating intuitive and visually appealing user interfaces for web and mobile applications. Demonstrated knowledge of wireframing, prototyping, and usability testing techniques. Hands-on experience with industry-standard design tools such as Figma.
