Education

2019/08 – 2022/09 Kampala, Uganda	**Bachelor's 0f Business Computing** *Makerere University* During my studies, I acquired a strong foundation in business programming skills in relation to the business environment, gaining a comprehensive understanding of programming languages, data structures, and software development principles. I completed coursework in database systems, network systems and web development. I also participated in several group projects, where I collaborated with teammates to develop innovative software solutions.

Courses

2023/03 – 2023/11 San Francisco, USA	**Full stack development Program (Online)** *Microverse* I undertook an intensive Full Stack Web Development course to enhance my skills and knowledge in building dynamic and interactive web applications. The course covers a wide range of topics, including front-end development, back-end development, and database management. Currently learning hands-on experience in HTML, CSS, and JavaScript for creating responsive and visually appealing user interfaces. Additionally learning frameworks like react.js. Node.js and Ruby on Rails
2022/09 – 2022/12 Kampala, Uganda	**Web Development, Code Queen Bootcamp** *Educating The Children* Proficient in designing and developing dynamic and responsive websites using modern web technologies. Skilled in front-end development, including HTML, CSS, JavaScript, and frameworks such as jQuery. Experienced in implementing user-friendly interfaces and ensuring cross-browser compatibility. Familiarity with version control systems like Git and collaborative development workflows. Proven ability to create efficient, scalable, and secure web applications. Strong problem-solving and debugging skills, with a focus on delivering high-quality code.
2022/11 – 2022/12 Kampala, Uganda	**UI/UX designer** *Great Learners* Completed an intensive online course on UI/UX design, acquiring a comprehensive understanding of user-centred design principles and best practices. Developed proficiency in creating intuitive and visually appealing user interfaces for web and mobile applications. Demonstrated knowledge of wireframing, prototyping, and usability testing techniques. Hands-on experience with industry-standard design tools such as Figma

Skills

HTML	Teamwork	API design and development
CSS	Communication	Continuous Learning
JavaScript	Time Management	Client Focused
Node.js	Adaptability	Self-Motivation
React.js	Problem Solving	Attention to detail
